

I listen to K-Love daily in the car and at work. It provides me the environment and listening that I want in my day.

I believe this station helps children learn that there are better ways to listen to music and that Christian music can be Rock, Country, etc. Communities everywhere needs this station. It is just like the schools that need prayer.

They took that away and now look at our schools!

Words are important and the words in the music that K-Love plays is what I want myself and everyone around me to hear.
